

BigBlueButton

Brief Description:

BigBlueButton is a global teaching platform. It was developed in a school, not in a boardroom. Making it the only virtual classroom built from the ground up, just for teachers.

It's available in 65 languages and teachers all over the world have contributed to its design. Along with a global network of developers and companies providing commercial support, BigBlueButton is continuously evolving to meet the new real-world needs of teachers everywhere.
